I am a student of the Faculty of Natural Sciences and Mathematics, majoring in Information Technology, and I aspire to work as a Front-end Developer. Although I do not have any work experience, I have a number of projects that demonstrate my knowledge and passion for programming. I am eager to acquire hands-on experience to hone my skills and gain a better understanding of problem-solving, to develop high-quality web applications. Additionally, I am fluent in two languages: Bosnian and English.

## PROJECTS

Here are my top projects that I am most proud of:

- Official Tesla website clone - demonstrated my proficiency in CSS and HTML, and ability to implement complex designs
- To do app - showcased my ability to work with front-end technologies to develop practical web applications
- Dictionary app - showcased my skills in working with web APIs to retrieve and display data
- Hangman game - demonstrated my creative problem-solving skills in creating simple games using front-end technologies
